ORDER

On August 22, 2014, Louisville Gas and Electric Company and Kentucky Utilities Company (“Joint Applicants”) submitted a formal notice of their withdrawal of that part of their January 17, 2014 Joint Application requesting approval of a certificate of public convenience and necessity (“CPCN”) for the construction of a 700-megawatts (“MW”) natural gas combined-cycle combustion (“NGCC”) turbine unit at the Green River Generating Station (“Green River”). Joint Applicants also indicated that their withdrawal of the CPCN request for the Green River NGCC does not impact the request for a CPCN to construct the 10-MW solar photovoltaic facility at the E.W. Brown Generating Station. Joint Applicants further requested that the review and investigation of the Joint Application, as amended by this notice, be resumed in accordance with the proposed procedural schedule that was discussed at the August 12, 2014 Informal Conference and attached to the August 14, 2014 Informal Conference Memorandum.

Having reviewed the notice and being otherwise sufficiently advised, the Commission finds that Joint Applicants have established good cause to permit them to

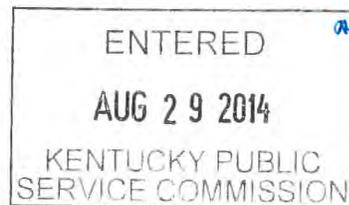

withdraw their request for a CPCN to construct the Green River NGCC. The Commission further finds that the instant matter should be taken out of abeyance and our investigation should be resumed pursuant to the procedural schedule attached to the August 14, 2014 Informal Conference Memorandum.

IT IS THEREFORE ORDERED that:

1. Joint Applicants' notice of withdrawal is granted and the January 17, 2014 Joint Application shall be treated as amended to remove the CPCN request for the Green River NGCC.

2. The investigation of the request for a CPCN to construct a 10-MW solar photovoltaic facility at the E.W. Brown Generating Station is resumed and the procedural schedule set forth in the appendix, which is attached hereto and incorporated herein, to this Order shall be followed.
